

THE MAGIC OF MIXED MEDIA COLLAGE WORKSHOP

WINGED HEARTS

Saturday, January 25, from 10am - 5pm
Whimzyland - 1206 Third Street N - Safety Harbor
Sponsored by Safety Harbor Art and Music Center

From time to time it's fun to create outside the box, so to speak, and hearts are a perfect way to add some spice to any design. The heart symbolizes love and affection and a winged heart symbolizes a joyous and free spirited nature...evoking more of an exuberant feeling than creating on a rectangle shape!!! Just like the human heart...each one of our art hearts will be totally unique. At this time of year...a new beginning...we'll pick a word or phrase to put on our hearts that will speak to something we want to focus on or manifest in our lives in 2014.

WHAT WILL WE BE DOING?

Saturday we will begin our day with demonstrations of different methods of gluing, tips on design, ways to unify your work with aging and paint methods, how to let your instincts guide your art, how to incorporate your photos in mixed media and much more. We'll play, exploration and have fun.

WHAT WE WILL SUPPLY:

All supplies are included. We will take a lunch break and eat at a local restaurant. Lunch is not included in the price.

WHAT YOU WILL NEED TO BRING:

If you have any favorite paint colors you can bring them along with any objects you might want to put on your hearts. Also, you might want to bring photocopies of old or new photographs. Wear clothes that you don't mind getting funky.
